Challenging Justice, Changing Lives

Fantastic Crime Fiction and Fact

With Estelle Blackburn

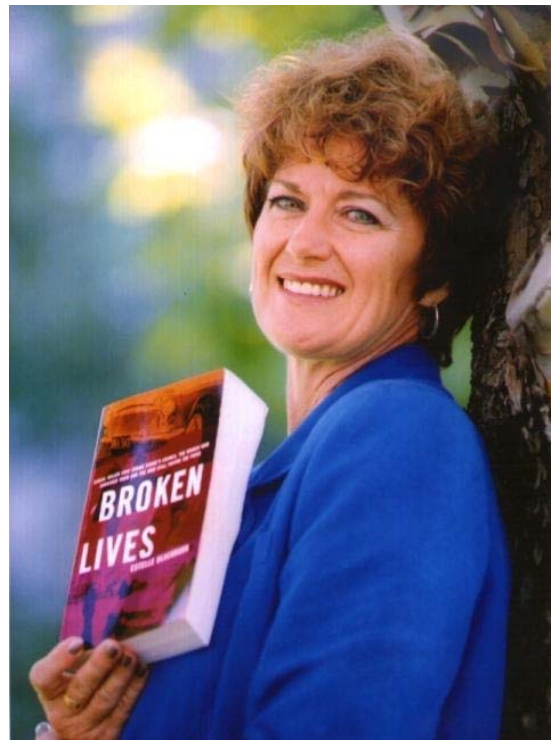

A real life detective story encompassing murder, innocence, wrongful conviction, determination and finally justice.

Come and hear Estelle speak about her book "*Broken Lives*" and how it forced our legal system to finally admit the innocence of John Button and Darryl Beamish.

Estelle details the events in Perth in 1963, when a serial killer changed forever the psyche of the previously safe, secure, big country town.

Estelle's work won her an Order of Australia Medal and a Walkley Award for an outstanding contribution to Journalism.

Estelle will also talk about her latest book "*The End of Innocence*" and her Churchill Fellowship funded research into overseas injustice organisations and victims.

Hear her speak at our:
